## **DATASHEET - M22-A**

#### **Mounting clamp**

Part no. M22-A Catalog No. 216374 Alternate Catalog M22-AQ

No.

EL-Nummer 4355362 (Norway)

**6** 

## **Delivery program**

| 71 0                       |   |
|----------------------------|---|
| Basic function accessories | Mounting adaptor  |
| Function                   | Mounting clamp (front mounting) for 3-contact LED elements  |
| Description                | for 1 function element M22-SWD-K or LED element M22-SWD-LED in addition 1 or 2 contact elements M22-K possible Sequence numbers on fixing adapter |
| Fixing                     | Front fixing  |
| Connection to SmartWire-DT | yes   |
| For use with               | M22-SWD-K<br>M22-SWD-LED  |
| For use with               | Contact elements M22-(C)K<br>LED elements M22-(C)LED  |
| Configuration              | $ \begin{array}{c ccccccccccccccccccccccccccccccccccc$  |

# **Technical data**

#### General

| Climatic proofing   |    | Damp heat, constant, to IEC 60068-2-78<br>Damp heat, cyclic, to IEC 60068-2-30 |
|---------------------|----|--|
| Ambient temperature |    |  |
| Open                | °C | -25 - +70  |

## Design verification as per IEC/EN 61439

| Design verification as per IEC/EN 61439   |                   |    |  |
|---|-------------------|----|--|
| Technical data for design verification  |                   |    |  |
| Rated operational current for specified heat dissipation  | In                | Α  | 0  |
| Heat dissipation per pole, current-dependent  | $P_{\text{vid}}$  | W  | 0  |
| Equipment heat dissipation, current-dependent   | $P_{\text{vid}}$  | W  | 0  |
| Static heat dissipation, non-current-dependent  | $P_{vs}$          | W  | 0  |
| Heat dissipation capacity   | P <sub>diss</sub> | W  | 0  |
| Operating ambient temperature min.  |                   | °C | -25  |
| Operating ambient temperature max.  |                   | °C | 70   |
| EC/EN 61439 design verification   |                   |    |  |
| 10.2 Strength of materials and parts  |                   |    |  |
| 10.2.2 Corrosion resistance   |                   |    | Meets the product standard's requirements.                         |
| 10.2.3.1 Verification of thermal stability of enclosures  |                   |    | Meets the product standard's requirements.                         |
| 10.2.3.2 Verification of resistance of insulating materials to normal heat  |                   |    | Meets the product standard's requirements.                         |
| 10.2.3.3 Verification of resistance of insulating materials to abnormal heat and fire due to internal electric effects $$ |                   |    | Meets the product standard's requirements.                         |
| 10.2.4 Resistance to ultra-violet (UV) radiation  |                   |    | Please enquire   |
| 10.2.5 Lifting  |                   |    | Does not apply, since the entire switchgear needs to be evaluated. |
| 10.2.6 Mechanical impact  |                   |    | Does not apply, since the entire switchgear needs to be evaluated. |
| 10.2.7 Inscriptions   |                   |    | Meets the product standard's requirements.                         |
| 10.3 Degree of protection of ASSEMBLIES   |                   |    | Does not apply, since the entire switchgear needs to be evaluated. |
| 10.4 Clearances and creepage distances  |                   |    | Meets the product standard's requirements.                         |
| 10.5 Protection against electric shock  |                   |    | Does not apply, since the entire switchgear needs to be evaluated. |
| 10.6 Incorporation of switching devices and components  |                   |    | Does not apply, since the entire switchgear needs to be evaluated. |
| 10.7 Internal electrical circuits and connections   |                   |    | Is the panel builder's responsibility.                             |
| 10.8 Connections for external conductors  |                   |    | Is the panel builder's responsibility.                             |

| 10.9 Insulation properties                               |  |
|--|--|
| 10.9.2 Power-frequency electric strength                 | Is the panel builder's responsibility.   |
| 10.9.3 Impulse withstand voltage                         | Is the panel builder's responsibility.   |
| 10.9.4 Testing of enclosures made of insulating material | Is the panel builder's responsibility.   |
| 10.10 Temperature rise                                   | Not applicable.  |
| 10.11 Short-circuit rating                               | Is the panel builder's responsibility. The specifications for the switchgear must be observed.           |
| 10.12 Electromagnetic compatibility                      | Is the panel builder's responsibility. The specifications for the switchgear must be observed.           |
| 10.13 Mechanical function                                | The device meets the requirements, provided the information in the instruction leaflet (IL) is observed. |

## **Technical data ETIM 7.0**

Low-voltage industrial components (EG000017) / Adapter for control circuit devices (EC001020)

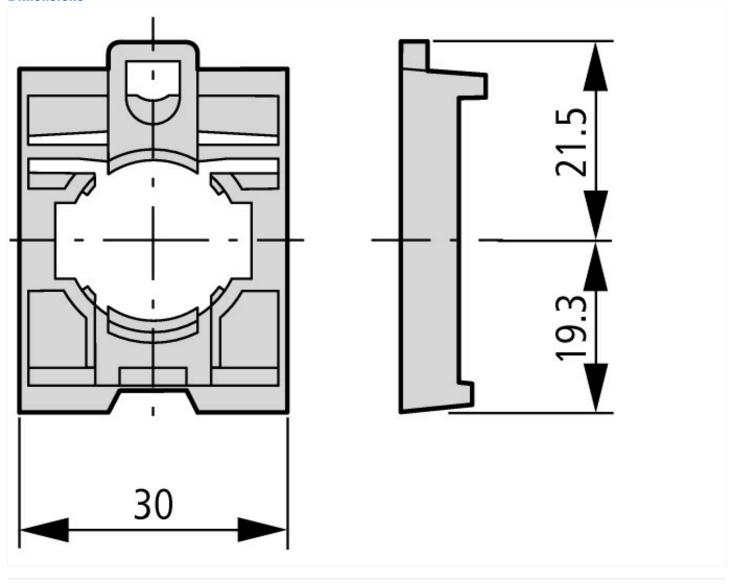

Electric engineering, automation, process control engineering / Low-voltage switch technology / Command and alarm device / Adapter for command devices (ecl@ss10.0.1-27-37-12-26 [AKF044014])

| Built-in diameter                | n | mm | 22 |
|----------------------------------|---|----|----|
| Number of appliances to build in |   |    | 6  |

# **Approvals**

| • •                         |  |
